

Dorđe Antal

Hello, my name is Dorđe. I'm 26 years old freelancer and I live in Serbia, based in Belgrade, hometown is Vršac.

Currently, I'm on a lookout for a place with a stable company culture where I can grow my skills while participating in a positive work environment and creating outstanding work.

I am a web designer with advanced HTML/CSS skills, few javascript tricks and some basic understanding of backend(PHP, MySQL).

I know to repair hardware and how to talk with clients/customers so I could give good support in a time of need.

In the future, I would like to get in-deep with modern front-end frameworks and libraries, right now I am practicing Angular 8.x (typescript).

As education goes, I have a medical high school diploma and a few programming courses and online boot camps. I have around 3 years of experience as a web developer and more than 7 in creative industry.

JOB EXPERIENCE

FREELANCE: 2013-present

Working as a freelancer has given me a lot of dynamic for my life and time for my private projects also you gather various skill stack with every new client. I had a great experience working remotely and for „real life“ clients but I think it is a time to move forward.

This is my favourite review ever :

“djoleNINJA ROCKS! This guy knows his stuff, communicates well and quickly, and is just a pleasure to work with. Highly recommend!”

OKMATEMATIKA: 2014-2015

This one was also freelance but it was big and lasted 6 months. On this project I created more than 70 minutes of 2D animation and graphics for online learning platform.If you are interested you can see some of the videos on www.matematika.edu.rs/video others are on locked part of platform.

INNOTECH GLOBAL LLC: 2016-2017

I worked here as a front-end developer/web designer on various projects . Mostly banners, landing pages and newsletters.

IINTERACTIVITY.RS (AMD BUSINESS SYSTEM D.O.O.): 2017-2019

I had an honor to work with stand alone totems(tourist guides), my role was on field technician. That means opening up totems and fixing them right on spot. Sometimes replacing displays, other times fixing software bugs.

EDUCATION

OSNOVNA ŠKOLA JOVAN STERIJA POPOVIĆ 5.00

HEMIJSKO MEDICINSKA ŠKOLA VRŠAC MEDICINSKA SESTRA TEHNIČAR 4.20

SELF EDUCATION:

I believe in constant learning through practice with trial & error. Self education is big source of my knowledge. YouTube tutorials, TED talks, code.tutsplus, stackoverflow, code school and khanacademy are my favourite spots on web for learning and growing. I am able to grasp new concepts quickly and efficiently.

ITACADEMY:

On this one year long course I expend my knowledge of web development.
